

BIG BEND

GUARANTEED ANALYSIS

Zinc (Zn) (Actual).....36%
Derived from: Zinc Oxide

Caution: This fertilizer contains zinc for use as a material for manufacturing mixed fertilizer. It may prove harmful if misused . Use only as directed.

Usage: This product is to be used as a source of zinc in the production of a blended or granulated fertilizer. Specific rate per acre should be based on the use of a certified laboratory analysis (specific soil sample or representative plant tissue sample), and determined by county consultant or individual with agronomic training.

Disclaimer: Manufacturer warrants that this product conforms to its chemical description, and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use. The manufacturer's only obligation in the event of a breach of this warranty shall be to replace any quantity of the product proved to be defective. The manufacturer shall not be liable for any loss or damage, whether direct or consequential, arising out of the used of this product, whether or not in accordance with directions or suggestions.
