GUARANTEED ANALYSIS

Soluble Potash (K2O).....25.00%

Derived from: Potassium Acetate

GENERAL INFORMATION

K-ACE is a neutral to basic, chloride-free, clear liquid solution, containing 25% potash. Each gallon contains 2.7 pounds of potash (K2O). K-ACE has excellent foliar absorption characteristics.

K-ACE can be applied by drip, sprinkler or flood irrigation. It can be blended with other fertilizers or applied as a foliar treatment on selected crops. When used as a foliar fertilizer, K-ACE should first be diluted with water before acidifying.

K-ACE can be applied to a wide variety of ornamental, turf, greenhouse, and other agricultural crops. Potassium requirements for most crops increase dramatically during periods of rapid growth and fruit development.
